Our Portfolio

Marking Retroreflection

All types of road and airport markings. Day and night visibility. Wet and dry conditions.

ZRM 6006 RL-Qd

ZRM 6010 RL

ZRM 6013+ RL-Qd

ZRM 6014 RL-Qd

ZDR 6020 RL

Sign Reflection

Visibility measurements of traffic and road signs and reflective materials.

ZRS 6060

Marking Thickness

Dry film thickness measurement.

ZMM 5000

Static Retroreflectometers

The industry standard for day and night visibility measurements of road markings

ZRM 6006 RL-Qd

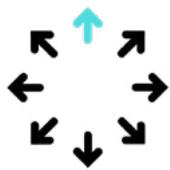

ZRM 6013+ RL-Qd

ZRM 6010 RL

ZRM 6014 RL-Qd

Versatility

Gather data from night and day visibility effectively, anytime and on any road surface.

Accuracy

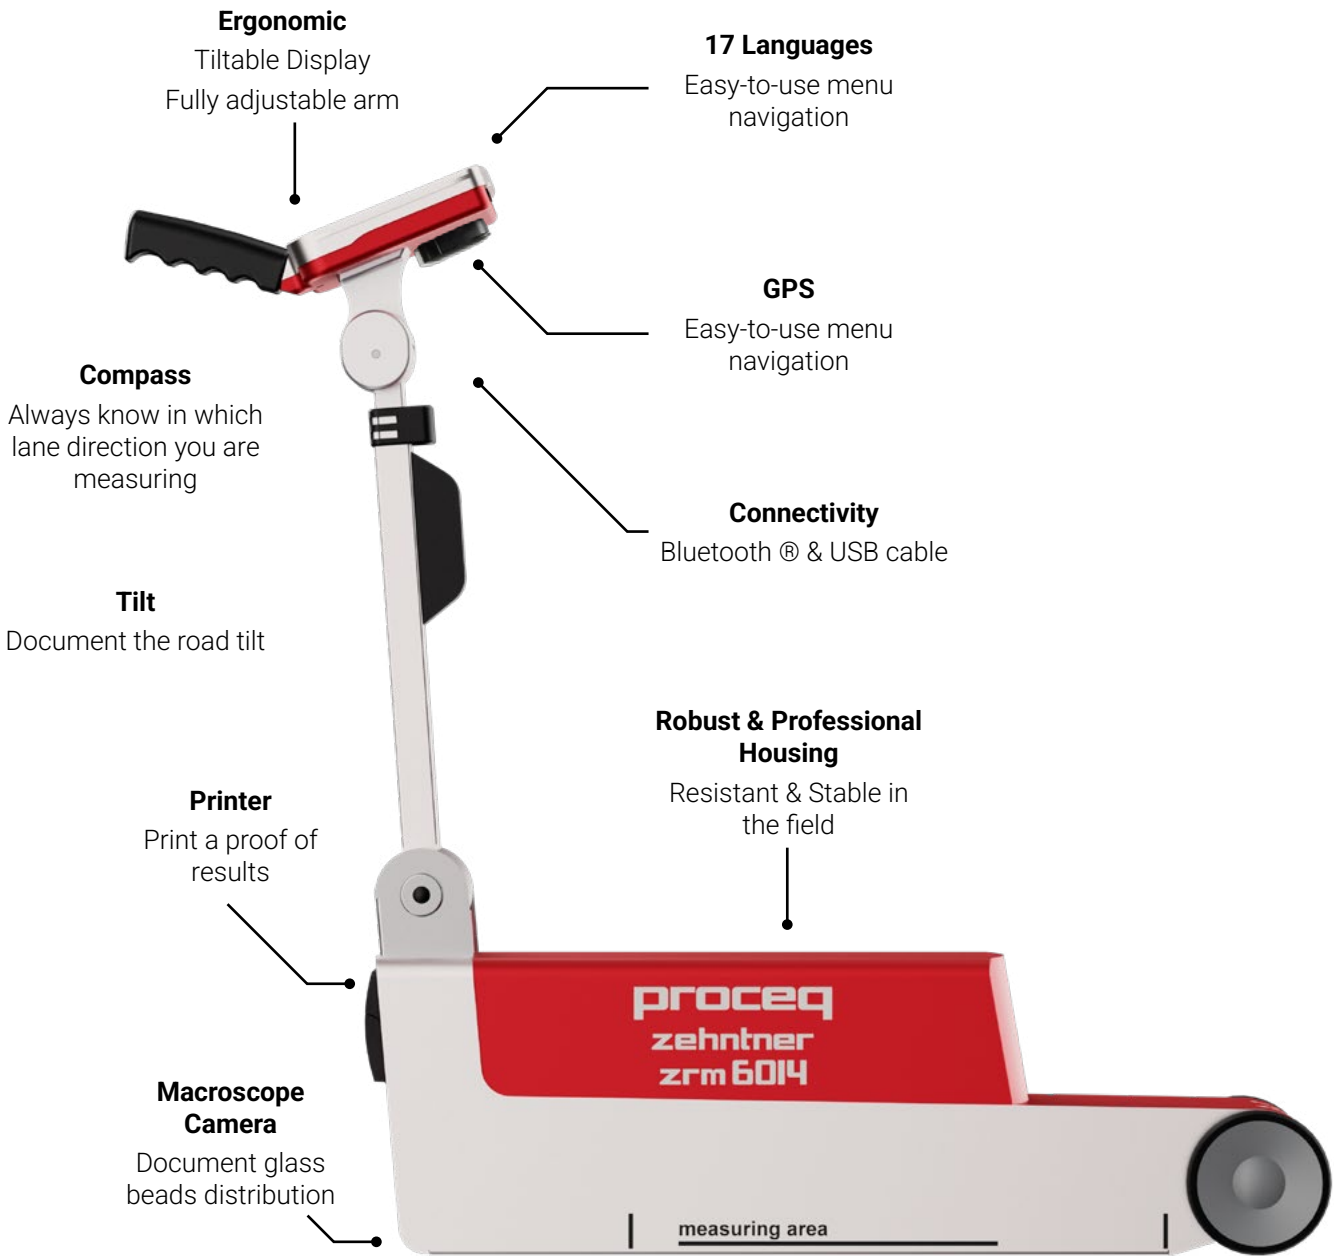

Accuracy and ultrafast retroreflection measurements (RL and Qd) in about 2 seconds thanks to intelligent electronics paired with Swiss Made optics.

Productivity

Redefine your measurements with precise geolocation and high-resolution images and create comprehensive reports quickly and with ease.

Zehntner ZRM 6014

Note: ZRM 6014 advanced shown on this page. ZRM 6014 is available in three models basic, pro & advanced depending on the chosen features.

Model Overview

ZRM is available in two models (Pro & Advanced) depending on the chosen features depicted in the following Model table:

Zehntner ZDR 6020 RL

Dynamic Retroreflectometer

Vehicle-mounted retroreflectometer for safe and efficient continuous measurements

Reliability

Vehicle-mounted with 300 measurements per second guaranteeing accurate and continuous coverage for all types of colors and road markings.

Accuracy

Handheld precision at up to 150 km/h (93 mph) without obstructing traffic and for all light conditions, even in bright sunlight.

User Experience

Measurements can be evaluated with the free mapping tools software on an industrial-grade touchscreen tablet with a multilingual user interface.

Zehntner ZRS 6060

Sign Retroreflectometer

Visibility measurement of traffic and road signs and reflective materials

Versatility

Superior ergonomics and screen readability, thanks to the adjustable display. Measure the night visibility of traffic signs, safety garments, conspicuity tapes, and other reflective materials.

Accuracy

A new benchmark of accuracy and robustness under any conditions in the field with optics to monitor the environment and adjust to stray light.

Productivity

Enrich your measurements with precise geolocation and high-resolution images and create comprehensive reports quickly and with ease.

Model Selector

ZRS 6060 is available in three models (Basic, Pro & Advanced) depending on the chosen features depicted in the following Model table:

Model

Features	Basic	Pro	Advanced
RA Measurements	X	X	X
Data Transfer to PC with USB	X	X	X
Data Transfer to PC with Bluetooth	X	X	X
MappingTools PC Software	X	X	X
GPS		X	X
QR/Bar Code Reader			X
Camera			X

All three models can be selected with one of the default measurement geometries (ASTM, CEN, EN, CD, DE & ECE), with a preinstalled front mounted illumination angle adapter, as depicted in the model variant table.

If required, other illumination angle adapter variants can be purchased on the ZRS6060.

Model variant

Features	x	ASTM	CEN	EN	CD	DE	ECE*
Qd	-4°	X					
	5°		X	X	X	X

Product Lineup

Road Marking Inspection

Zehntner ZRS 6060

Zehntner ZMM 5000

Road Marking Thickness

Unique digital dry film and road markings gauge

Ease of Use

Superior ergonomics and screen readability thanks to the digital adjustable display, measuring results within seconds.

Reliability

Sturdy construction that can extract representative measurements on wide road markings with its optional measuring bridge.

Performance

Reliable measuring, including those relative to the substrate or to the marking itself (upwards and downwards measurements).

Zehntner Mapping Tools

For ZRS 6060, ZRM 6014 & ZRM 6013+

The complementary MappingTools, versatile mapping and data analysis software makes administration & analysis of your measurements simple and easy. View your data, create PDF reports, export your data to XLS or to KMZ format to display your data with Google Earth™.

MappingTools is compatible with Windows® 10, Windows® 8, Windows® 7, Windows Vista® & Windows® XP SP2.
