Dear Mr Craig Rice

SAC ACCREDITATION FOR THE FIELD OF CIVIL ENGINEERING TESTING

I am pleased to inform you that the Council Committee for Laboratory (CCL) has granted the accreditation of your laboratory to ISO/IEC 17025:2017 in the field of Civil Engineering Testing for specific tests under the SAC Certificate of Accreditation No. LA-2022-0803-B.

CCL has granted signatory approval to Er. Chin Chee Jin for all tests as stated in the schedule. The scope of accreditation is detailed in the schedule LA-2022-0803-B, Issue No.1, and is available in SACiNet for your reference.

The SAC Certificate LA-2022-0803-B will be issued to you shortly. This certificate is valid for the period from 17 March 2022 to 16 March 2026 and can be renewed upon expiry. The annual fee is SGD 1,000.00 (before GST) per certificate and is payable at the beginning of every twelve-month period. Please note that all outstanding payments must be paid before accreditation can be granted.

During the validity of the certificate, regular assessments of your laboratory will be conducted to ascertain that it continues to comply with the requirements of the SAC-Singapore Laboratory Accreditation Scheme. A fee will be charged for such assessments. The fee will be based on the prevailing rates as published in the Fee Schedule SAC-SINGLAS 003.

With accreditation, your laboratory is accorded the use of the exclusive SAC mark on the test reports that you issue for accredited tests. You may also use the ILAC MRA mark on reports that deal solely with tests covered under the terms of accreditation. This will demonstrate that your laboratory is accredited by a signatory of the ILAC Arrangement.

Please note that advanced approval from the SAC Secretariat is required, should you plan to use the SAC or ILAC mark or make reference to SAC accreditation in advertising and promotional publications.
